

# ORION

COLLECTION

Orion is a prominent constellation located on the celestial equator and visible throughout the world. It is one of the most conspicuous and recognizable constellations in the night sky. It is named after Orion, a hunter in Greek mythology. Its brightest stars are blue-white Rigel and red Betelgeuse.

# CRUX

COLLECTION

Crux (n.) 1814, "a cross," from Latin crux "cross," a word of uncertain origin. Crux is a constellation centered on four stars in the southern sky in a bright portion of the Milky Way. It is among the most easily distinguished constellations as its hallmark stars each have an apparent visual magnitude.
